DETAILED ACTION

1. This Office action is in response to the amendment filed on October 12, 2005.
2. Claims 16-20 and 25-27 are pending.
3. Claims 16-18, 20, 25 and 26 are amended.
4. Claims 1-15, 21-24 and 28-39 are canceled.

Response to Amendment

5. The amendments to claims 16, 18 and 25 overcome the 112 rejections; in particular, the new step includes the essential step of determining the single value from the set of encrypted single values.

Allowable Subject Matter

6. The following is an examiner's statement of reasons for allowance: Applicant's claimed invention is directed to a process for protecting a software product, sent from a server computer to a computer, from unauthorized usage. The prior art of record suggest or teach a similar invention, however, the prior art does not suggest nor teach: at the server computer, creating a single value from the set of parameters received by the server computer from the computer, encrypting the single value by using members of the first set of parameters to form a set of encrypted single values; sending the set of encrypted single values to the computer, generating a second set of parameters from the computer, decrypting members of the set of encrypted single values using members

of the second set of parameters, and determining from the decrypted members of the set of encrypted single values, the single value. Hence, claims 16-20 and 25-27 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
